OFFICIAL PAPER OF THE CITY

JUDGE HUBBELL

Speaks at Lappin's Hall THIS EYE. NING. Those who want to hear an elequent speech, brimming over with patriotism, will be there.

It is hoped that Ex-Governor Wright, of Ind., will occupy a place on the stand, and he may be induced to speak.

The State Fair.

The rain last night and the gloomy weather of to-day, conspired to keep a large number of persons from the fair grounds, but there was a large number in attendance in spite of mud and damp weather, and at eleven o'clock the inclosure began to take on the appearance of a State Fair.

Rock county seemed to be turning out en masse and long lines of wagons, earriages, buggies and other vehicles lined every road leading to the exhibition. There was to have been a trot this morning at nine o'clock for a purse of \$100, but owing to the harrible condition of the track, it was postponed.

There was, however, a voluntary trial of speed by a few nags that had to show their heels in definnce of the mud and slop, and each one started when he pleased and quit in the same manner.

This afternoon was set apart for the findies Equestrian display, and attracted a large crowd of spectarors. Tomorrow the chief attraction will be the Annual Address by Governor Wright of Indiana, who is in the city and the guest of Hon. I

THE DRAFT IN CHICAGO. -The draft in Cook County, Illinois, commenced yesterday at Chicago. About 100 were drafted from country towns. The draft in the wards of that city will go right on if the quotas are not filled when they are reached. It has been said that no draft would be made in Chicago, but we understand the deficiency in Cook County is nearly equal to that of Milwankee county. We are happy to learn that so far as they went yesterday, the right kind of men were drawn out, as a general rule. There seems to be a singular fatality in the present draft. It has been very partial to individuals of the copperhend persuasion.

It is very amusing to see how the Demouracy deal with their ticket. McClel- do sow do; I yorkshire boar do; I do sow lan has written a letter of acceptance but Pendleton has not. The reason assigned for Pendleton is that he has never been usked to accept the nomination, which moans that the Democrats don't want him to write a letter. They know letters from McClellan and Pendleton would be directly in conflict. Hence, for the sake of consistency, they muzzle one and let the other speak. They want the people to trust, after the election, candidates whom they dare not trust before the election.

A Party Good Test .- The Copperheads of Illinois are already growling about the proposed arrangement by which the soldiers are to be brought home to vote for President. These coppery patriots are afraid the army will suffer by the denletion. Why didn't the State Legislature, when the Copperheads had control of it, submit to the people an amendment to the Constitution enabling the soldiers to vote in the field? The truth is, after all their boasting about the soldiers being for McClellan, they dare not trust to the army rote. Their fears belie their words,

General Burnside passed through Salem, Massachusetts, on Wednesday, on his way to the front. At the depot he was met by a large crowd of citizens-to whom he said :

"I am glad to meet you to day, and congratulate you on the news of the glorious victory just achieved by a glorious General. I have known General Sheridan long and well, and while some were perhaps impatient, thinking that he was alow, 'I felt assured that he was only waiting for an opportunity to inflict a heavy blowand that he has done-one of the heaviest of the war. I am happy to express the belief that other clows will follow in the course of the next three or four months. We may meet with occasional rever-e, but the military situation is such that the loyal armies will be triumphant, and the rebellion will be crushed."

A RUNAWAY ENGINE .- On last Saturday an engine on the Pennsylvania railroad, at West Philadelphia, which had been supplied with fuel and water prepar. ntory to taking a train West, got loose from the hostler and ran off the south track like a streak, snorting and puffing as if giving a challenge for a race. Engineer Black, with the engine of the fast line, was dispatched at once on the north track in purmit of the fugitive, and she being a faster animal, caught up with the, runaway at Athensville, and running alongside, the en-gineer stepped over and reined in the flying steed .

Potsonous Liquos. The poisonous character of the liquor sold at the present day was illustrated in the case of a negro who died at Philadelphia the other day, of intemperance. A post mortem examination was made, and when the abdomen was laid open, it was found that by the direct action of the liquor, the membrane lining the stomuch had been corrolled and eaten through. The mucous membrane of the viscera was so nearly destroyed that the victim may be literally said to have been "eaten" by poisoned and "doctored" liquor.

One or the best qualities in a Sowing Machine is its quick-ready adaption to any kind of work,

FROM THE SOUTH.

New York, Sept. 29.—The Richmond Enquirer of the 26th says, Early passed through Port Republic on Saturday and stopped at a post station known as Kiczltown about 13 miles from Staunton. and 6 from Part Republic on the road between the valley Turnpike and the South river road. Longstreet has reported for duty and comes back most opportunely to rectify affairs in the Valley.

OFFICIAL BULLETIN.

Washington, Sept. 29 .- To Mai. Gen. Diz :- On Monday at 8 o'clock a. m., our forces were at Waynesboro. No damage had been done up to 4 p. m., by the rebels, but the smoke indicated they were burn ing the railroad track between Christian creek and Staunton. No direct communication has been had with Gen. Sheridan for several days, and couriers to and from him are known to have been captured by the guerrillas that infest the country in hi Dispatches to 9:10 last night have been

received from Sherman at Atlanta, but no movements at that point are reported. From Nashville, our dispatches are to 9:30 last night. The enemy did not atack Pulaski, but took the pike toward Payotteville and was pursued about nine mil - by our cavalry. JUDGE HUBBELL Speaks at Lappin's Hall THIS EVE-NING. Those who want to hear an eloquent speech, brimming over with patriot-

ism, will be there. It is hoped that Ex-Oovernor Wright, of Ind., will occupy a place on the stand, and

The State Falr.

he may be induced to speak.

The rain last night and the gloomy weather of to-day, conspired to keep a large number of persons from the fair grounds, but there was a large number in attendance in spite of mud and damp weather, and at eleven o'clock the inclosure began to take on the appearance of a State Fair.

Rock county seemed to be turning out en masse and long lines of wagons, carriages, buggies and other vehicles lined every road leading to the exhibition. There was to have been a trot this morning at nine o'clock for a purse of \$100, but owing to the horrible condition of the track, it was postponed.

There was, however, a voluntary trial of speed by a few nags that had to show their heels in deliance of the mud and slop, and each one started when he pleased and quit in the same manner.

This afternoon was set apart for the Ladies Equestrian display, and attracted a large crowd of spectarors. Tomorrow the chief attraction will be the Annual Address by Governor Wright of Indiana, who is in the city and the guest of Hon. I

THE DRAFT IN CHICAGO.-The draft in Cook County, Illinois, commenced yesterday at Chicago. About 100 were drafted from country towns. The draft in the wards of that city will go right on if the quotas are not filled when they are reached. It has been said that no draft would be made in Chicago, but we understand the deficiency in Cook County is nearly equal to that of Milwaukee county. We are happy to learn that so far as they went yesterday, the right kind of men neere drawn out, as a general rule. There seems to be a singular fatulity in the present draft. It has been very partial to individuals of the copperhead persuasion.

It is very amusing to see how the Demooracy deal with their ticket. McClellan has written a letter of acceptance but Pendleton has not. The reason assigned for Pendleton is that he has never been asked to accept the nomination, which means that the Democrats don't want him to write a letter. They know letters from M Diellan and Pendleton would be directly in conflict. Hence, for the sake of consistency, they muzzle one and let the other speak. They want the people to trust, after the election, candidates whom they dare not trust before the election.

A PRETTY Good Test .- The Copper heads of Illinois are already growling about the proposed arrangement by which the soldiers are to be brought home to vote for President. These coppery patriots are afraid the army will suffer by the depletion. Why didn't the State Legislature, when the Copperheads had control of it, submit to the people on amendment to the Constitution enabling the soldiers to vote in the field? The truth is, after all their boasting about the soldiers being for McClellan, they dare not trust to the army rote. Their fears belie their words.

General Burnside passed through Salem, Massachusetts, on Wednesday, on his way to the front. At the depot he was met by a large crowd of citizens-to whom he said:

"I am glad to meet you to day, and congratulate you on the news of the glorious victory just achieved by a glorious General. I have known General Sheridan long and well, and while some were perhaps impatient, thinking that he was slow, I felt assured that he was only waiting for an opportunity to inflict a heavy blowand that he has done-one of the heaviest of the war. I am happy to express the helief that other blows will follow in the JS Noran Pt course of the next three or four months. We may meet with occasional reverse, but the military situation is such that the loyal armies will be triumphant, and the rebellion will be orushed."

A RUNAWAY ENGINE. On last Saturday an engine on the Pennsylvania railroad, at West Philadelphia, which had been supplied with fuel and water preparatory to taking a train West, got loose from the hostler and ran off the south track like a streak, snorting and puffing as if giving a challenge for a race. Engineer Black, with the engine of the first line, was dispatched at once on the north track in purauit of the fugitive, and she being a faster unimal, caught up with the, runaway at Athonsville, and running alongside, the engineer stepped over and reined in the flying steed .

Polsonous Liquor. The poisonous character of the liquor sold at the present day was illustrated in the case of a negro who died at Philadelphia the other day, of intemperance. A post mortem examination was made, and when the abdomen was laid open, it was found that by the direct action of the liquor, the membrane lining the sto-mach had been corroded and eaten through. The mucous membrane of the viscera was so nearly destroyed that the victim may be literally said to have been "eaten" by noisoned and "doctored" liquor.

One or the best qualities in a Sewing Machine is its quick-ready adaption to any kind of work.

No elaborately propared "specimens" will accompany the Wherever & Wilson Machine to the Fair ground. The cutire exhibition of this machine will be "offsept29-dawtf-a90.

BRYANT, STRATTON & SPENCER'S MIL-WAUKEE BUSINESS COLLEGE.-We have received a call from Mr R C Spencer, resident Principal of Bryant, Stratton & Spencer's Milwaukee Basiness College. He informs us that the Milwaukee link in the great international chain of commercial colleges, is in a flourishing condition. The increasing patronage of the College has rendered it necessary to enlarge its accommodations by adding to the spacious rooms

rooms in Young's Block. It is said that the Milwaukee College is more handsomely and conveniently furnished and arranged than any other college in the international chain. The theroughness and superior advantages of the Milwaukee College give it the first claim to the consideration and patronage of our

State. Young men who are awake to their best interests will lose no time in availing themselves of the advantages of the Milwankee College, for obtaining a business education, which is always the best investment a man can make.

Dyspersia, Nervousness, and Debility, Dr. Strickland's Tonic.-We can recommend those suffering with Loss of Appetite, Indigestion, or Dyspensia, Nervousness and Nervous Dability, to use Strickland's l'enic. It is a vegetable preparation, free from alcoholic liquors; it strengthens the whole nervous system; it creates a good appelite, and is warranted to cure Dyspensia and Nervous Debility.

For sale by Druggists generally at \$1 per bottle. Prepared by Dr. A. Strickland, 5 East Fourth street, Cincinnati, O. E. F. Colwell Wholesale agent for Wisang23dawly.

See inside for State Fair reports.

We hope to be able to make some netico, to morrow, of the wool and fruit growers meetings, held in the Court Room, last evening.

FIRE WORKS THIS EVENING. - Owing to the very unfavorable state of the weather ast evening, the exhibition of fireworks by Mr. Deihl did not come off as expected. It takes place to-night at the head of Milwankee street, near Taylor's garden, and 15,913. The vote on allowing soldiers to but one exhibition will be given.

New Store and Extensive Stock .-The card of Messrs F C Jenkins & Bro. in another column, in which they set forth the attractions of their extensive stock, and their facilities for manufacturing articles in their line, cannot fail to have engaged the attention of our readers. This firm has just fitted up in a tasty munuar, and moved into, a new store, where they have a most complete and inviting stock. division recently did into Memphis. Go and look at it.

The State Fair opened auspiciously yesterday, but the attendance thus far has not been a large as upon some former oceasions. The display of agricultural implements is large, that of fruits and flowers also very fine. One of the prominent attractions of the Fair ground is the neat Grent. and convenient tent erected by the exhibiters of Wheeler & Wilson's sewing machine. This machine, here as elsewhere, takes a leading position amongst the labor saving inventions. The tent where the machines are exhibited, is constantly througed by a eagerly interested crowd, and all the varied and multitudinous styles and forms of machine work are rapidly and dextrously gone through with by the ladies and gentlemen in attendance. If any one doubts its ability to work successfully and with heretofore occupied, several other fine appropriate thread, silk or twine, any or all kinds of material, from the heaviest cow hide or beaver cloth to the lightest and most delicate tissues or tarletons, let them visit the Fair grounds and see for

themselves. THE STATE FAIR .- The attendance yes terday was good, and the exhibition very creditable in nearly all the departments. The weather-god shock his huge head and cloudy hair at us again toward evening, but nothing can now prevent success. The fine art hall is particularly attractive, and chief among the attractions is the gleeful music of the Wilcox & Gibbs sewing machine, busy in throwing off its beautiful bemming and stitching, without a finger or an eye to guide or watch the lightning more ments. The ludies never grow weary in watching its marvelous completeness. The musical instruments commanded much at tention, and "our own soldier boy." Mr Towne, sang patriotic songs, which were applauded to the echo. Photographic art is artistically represented, and many a mark of the "dear ladies" handiwork demand general admiration. The Driggs piano and the Willeax & Gibbs sewing machine, gather and hold the most admiring erowd. Orders for each were being taken yesterday, but by agreement with purchasers, they will remain on exhibition till sop20-d1d Friday evening.

Stanton and Seward visit Grant!

Owing to the crowded state of our colimns with State Fair matters, we are obliged to condense our long telegraphic reports this afternoon, giving, the gist of them in as brief space as possible.

Gold in N. Y. yesterday opened at 2.04 but in consequence of a rumor that Petersburg had fallen, it declined to 1.96. The antire amount of greenbacks has

been forwarded to the armies sufficient to pay them off. Some regiments in Grants, army have not been paid for eight months. The Washington Chroniclesays fighting may be expected by the army of the Potomac in a day or two.

Coal has declined two dollars per ton ia New York.

The Herald says all is quiet in Grant's army except an occasional artillery duel. Yesterday three spies were captured. Two citizens have also been arrested for giving information to the enemy. An order has been issued that officers

tered out of the service, the time during which they may have served as privates, not being counted. Gov. Cony's majority in 475 towns, is tote, stood 04,430 to 19,127 against it.

member of Mr Lincoln's Cabinet. Deserters from Lee's army again repeat the story of preparations being made for the evacuation of Richmond. Valuable machinery has already been sent south, and other shops are being shipped.

It is said Virginians are very jealous of these movements.

FROM THE SOUTH. New York, Sept. 29.—The Richmond Enquirer of the 26th says, Early passed through Port Republic on Saturday and stopped at a post station known as Kiezhown about 13 miles from Staunton, and 6 from Port Republic on the road be tween the valley Turnpike and the South river road. Langstreet has reported for duty and comes back most opportunely to

rectify affeirs in the Valley.

OFFICIAL BULLETIN. Washington, Sept. 29.—To Maj. Gen. Dia:—On Monday at 8 o'clock a. m., our forces were at Waynesboro. No damage had been done up to 4 p. m., by the rebels, but the smoke indicated they were burn ng the railroad track between Christian creek and Staunton. No direct communi-cation has been had with Gen. Sheridan for several days, and couriers to and from him are known to have been captured by the guerrillas that infest the country in his

Dispatches to 9:40 last night have been received from Sherman at Atlanta, but no movements at that point are reported. From Nashville, our dispatches are v 9:30 last night. The enemy did not attack Pulaski, but took the nike towards Egyetteville and was pursued about nine miles by our cavalry. General Rosseau is returning with his infantry to Nashville. Desperate efforts will be made by the ene my to force Sherman from Atlanta by destroying his communications.

The draft is quietly proceeding in all the states, but volunteer enlistments are being more speedily than the draft. Ali loyal, patriotic people should urge forward rapid emistments in order to reinforce Sherman and enable him not only to hold his position but also without delay to push on his campaign. E. M. Of Washing Machines there is a great number, many of them similar in principle and construction, but Dodder's patent is in our judgement the most simple, easily worked and effective of any we have noticed. It is operated by a crank and works on the fulling principle. It can be easily adjusted to any sized spiece and requiring but a small outlay of strength to work the heaviest pieces. It is destined to become the housewife's friend.

But while we are upon the subject of helps in the kitchen, we must not forget to notice Westcott's Churn. It is exhibited by Mr. William Booth of this city, who tested its qualities in the most satisfactory manner, by actual experiment. A few gallons of freum were produced, and the time of bringing the butter was just two minutes and a half by the watch. It is worked by a crank which a children turn, and after the churning is over is easily converted into a butter bowl in which the ple for preserving are the Hislop, Golden far as the cheese is concerned, it was by butter can be moulded to suit the fancy of the dairy woman. " It reaps and It mows, And it bigds as it goes, "

The whole farmers community has reason for congratulation that there is competition in this department of machinery, (we don't mean machine poetry) for whenever it becomes fully perfected it must save more labor for the farmer than any other single inventiou.

In the Reaper department the show is ncommonly full. Manny's is always a leading Reaper at exhibitions and is so here. Our townsman, Daniel Clow has is Reaper on exhibition but it is not entered because he had no machine on handexcept one that had been used. Mr. Clow claims that for simplicity of construction, ease of draft and durability his machine cannot be surpassed if equalled. We believe there is some justice in his claim. strikes us as one that will win favor. We cannot attempt to go through the list of them more particularly and in order.

Another great labor saver is Palmer's Excelsior Horse Pitchfork and Revolving Hay stacking machine. This machine takes the hay from the wagon by the use of a single horse and places it upon the stack or in the hay mow or rick without any hand labor of any amount. The Pitchfork we believe has been in use for some time among our farmers, but we

Of Washing Machines there is a great number, many of them similar in principle and construction, but Dodder's patent is in our judgement the most simple, easily worked and effective of any we have noticed. It is operated by a crank and works on the fulling principle. It can be easily adjusted to any sized spicee and requiring but a small outlay of strength to work the heaviest pieces. It is destined to become the housewife's friend.

But while we are upon the subject of helps in the kitchen, we must not forget to notice Westcott's Churn. It is exhibited by Mr. William Booth of this city, who tested its qualities in the most satisfactory manner, by actual experiment. A few gallous of dreum were produced, and the time of bridging the butter was just two minutes and a half by the watch. It is worked by a grank which a child can turn, and after the churning is over is easily converted into a butter bowl in which the butter can be moulded to suit the fancy all odds, the finest exhibition ever given of the dairy woman. It is well worthy the attention of butter makers.

There is another very curious churn on exhibition, called Thompson's churp. which runs like a clock, by winding up a ple, but could be easily adapted to a rotating chain.

One of the handsomest and most perfect working machines on the ground is James Harris & Co's Threshing machine & Separator. It is a model of mechanical skill of observing, so beautifully and precisely does each wheel and band and shaft perform its office. There appears to be no competing Thresher upon the ground, and it is hardly necessary to have one,

Straw cutters are too numerour to no tice at length, and we may as well refer them to the committee of the whole on the fair grounds.

I B Hyzer's Heat Radiator, is an appliance to attach to stove pipes, which it is claimed makes a great saving of fuel as wall as regulating the heat of the room. It is so arranged as to give a direct or an indirect draft. It is well worthy of the attention of house-keepers. Mr. William 1 Booth is also exhibiting Hubbard's Stove Pipe damper, which has been tested in this vicinity, and we believe has given general satisfaction. It is simple in construction,

and easily adapted to common stone pipes. Asa Blood's Patent Cate is one of those real improvements, that at first sight strikes the observer as just the thing. It is arranged with weights so as to close it-

Peoples' Edition of Parton's Gen. Butler in New Orleans.

One Volume, Octavo, Paper, Price 75c With the view of inceting the extensive popular det mand for this remarkable book, this edition has been prepared. The page and type are similar to those of theree's Magazins. Some of the less important documents are quitted, and in some instances the account has been condensed, yet nover so as to interfere with the interest or completeness of the story.

Unquestionably this book stands pre-eminent in in-terest among all yet occasioned by the rebellion. Its subject and author combine to render it fascinating. Fifteen editions have been called for as first as they could be printed. It has been most warmly commended by the loyal press of the country, and scarcely less to by a portion at least of the English press, by whom it is acknowledged to be a complete vindication of then. Butler from the malicious charges which ency and hatted have brought acquired here there is a complete which ency den. Butler from the malicious charges which envy and hatted have brought against him.

It contains an anecdotal sketch of Gen. Butler's brilliant and remarkable career at the bar of Massachusetts; a history of the secret movements in the Charleston Convention; conversations between Gen. Butter and the leading seces-ionists at Washington in December, 1580; the rest plans of the traitors; Gen. Butter invited to join them; his advice to Buchanan; his efforts in preparing Massachusetts for war; the celebrated march, via. Annapolis, to Washington; cellision with Gen. Scott; his course at Fortrees Monroe; the history of the centrabands; his advice to the Administration how to take Richmond; the truth about the history of the contradants; his adults to the Ad-ministration how to take Hichmond; the truth about the battle of Great Hithel; the Hauteras Expedition; the secret history of the New Orleans Expedition; the adventures of the General in getting to Ship Island; a full account of the capture of New Orleans; the landing of the troops in the city; a complete a cradice of succeeding events, with a large number of highly interesting narratives and anecdotes merer before published; the recall of then, Buffer, and the explanation given of it by the Government; his present opinions upon the great issues before us.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to by Hoofiland's German Bitters.

After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated. I often inwardly thank you for such a valuable speciffe, and, when I have an opportunity, chertuily re-commend it, with full confidence in its reliability. Truly yours, JOHN B. WITHERSHAM. PHILADELPHIA, Oct. 7th, 1863. Gantlemen: - In reply to your inquiry as to the effect produced by the use of Hoofland's German Bliters in my family. I have no hesitation in saying that it has been highly benedicial. In one in-tance, a case of dyspep-th of thirteen years at onling, and which had become very distressing, the use of one bottle gave de-cided telleft the recond abjecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequiled touic and sincerely recommend its use to the sufferers. Truly yours, JACOB BROOM, 1707 Epruce.

From Hev. W. D. Seigfeled, Paster of the 12th Haptist Church: PHILADELPHIA, December 26th, 1563. Mestrs, Jones & Econi—Gentlemen: I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested but without relief. Your Hoofland's tierman litters were recommended by the message of the state o by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "Bitters," whose only aim seems to be to palm off sweetened and drugged is nor upon the community, in a sty way; and the tender by which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. Indeestlonably this book stunds pro-embent in his terest among all yet occasioned by the rehellion. Had adject and author combine to render it faschaffing. Effices existions have been culled for as fast as they entitle be printed. It has been most warmly commended by the rehellion of the boyst press of the country, and scarcely less so by a portion at least of the English press, by whom it is acknowledged to be a complete vindication of Gen. But'er from the malicious charges which envy and haved have brought against blue.

It contains an anecdotal sketch of Gen. Butler's brillant and remarkable career at the bar of Massachesetts; a history of the servet universents in the Giagleston Convention; conversations between Gen. Butter and the leading secessionists at Washington in December, 1869; the reat plans of the traitors; Gen. Butter and the leading secessionists at Washington in Buter and the leading secessionists at Washington; the celebrated march, via. Annupolis, to Washington; collision with Gen. Scot; his course at Fortres Morres; the history of the contrabunds; his surise to the Administration how to take Richmond; the truth about the textle of Oreal Bethef; the Hanters Expedition; the adventures of the General In getting to Ship Ichad; a full account of the capture of New Orleans Expedition; the inference history of the New Orleans to the land; a full account of the Contrabunds; his present opinions upon the great issues before us.

I have levied upon and shall offer for sale at public nuction to the highest bidder, on the sidewalk in front of the strange to the Hyatt House Hotel, in the city of Janes-villa in said country. THE 1st DAT OF AUGUST, A. D. 1804.

From the Hon. Thomas B. Florence. Washington, Jan. 1st, 1864. Centlemen:—Having stated it verbally to you, I have on his little and it will be a fact, that I experienced marked benefit from your Hoofland's German Bitters. During a long and tedious session of Congress, pressing and onerous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they dealer to be.

Truly your friend, THOMAS B. FLORENCE. THE 1st DAY OF A UCLSY, A. D. 1804, at the ociock in the foremoon, all of the right, titleand interest which the above named defendant, Martin O. Walker, had on the 18th day of May, A. D. 1863, or has since acquired in all of those certain pieces or parcels of land situate and heing in said country of Bock, described as follows, to wit: 1st, all the lands couveyed by Thomas Shaw by deed of 17th of December, A. D. 1840, to A. Hyatt Smith, J. E. Doe and Martin O. Walker, described in and deed as "all the lends owned by the said Shaw and which are now Hawed or covered." From John B. Withersham, Esq., firm of Withersham and Hutchinson, the celebrated manufacturers of Fancy Iron Works, 259 Cansl street:

I am the recipient from you of one of the greatest favors that can be conferred upon man, viz, that of heatth. For many years have I suffered from one of the most sanoying and debilitating complishes that the human ismily can be addicted with, Chronic plartines.

Dering the long time I was suffering from this discase, I was attended by regular physicians, giving me but temporary relief. The cause soomed to remain until I was induced to try Hoofiland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated. exted.

I often inwardly thank you for such a valuable specific, and, when I have an opportunity, cheerinity recommend it, with full out fidence in its reliability.

Trall yours. JOHN B. WITHERSHAM.

From Rev. W. D. Selgfried, Pastor of the 12th Bantist Church:

Build Bantist Church:

I have recently been labering superior in the hervous system. Namerons remedies were recommended by friends, and some of them tested but without rollef. Your Hochands German Bitters were recommended by persons who bud tried them, and whose favorable nieution of the Bitters induced ne also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "Bitters," whose only alb section to be to paim off sweetened and drugged layor upon the community, in ally way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon hearing that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permuneat benefit from the tax of a few bottles

Very respectfully years, W. D. SEIG BIED. Gentlemen: —In reply to your inquiry as to the effect produced by the use of Hoodund's German Bitter in mr. family, I have no hesitation in saying that i has been highly benedical. In one instance, a case dyspepsio of thirteen years' standing, and which has dyspepsia of thirteen years attaiding, and which hat become very distressing, the use of one bottle gave decided railed, the second effecting a cure, and the third, it seems, has confirmed this cure, for there has been no symptoms of its return for the last six years. In my individual use of it. I find it to be an anequaled PAX NOTICE.

From the Rev. Thos. Winter, D. D., Pester of Renbury Espitat Church:

Dr. Jacksom-Pester Sir: I feel it due to your excellent preparation, Heofland's German Bitters, to add not be silmony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and norvous system. I was addisoned by a friend to try a bottle of your German Hittern. I did so, and have experienced prent and unexpected relief; my health has been very naturally benefitted. I confidently recommend the article where I meet with cases similar to my own, and have been assured by roany of their good effects.

Respectfully yours,

E. WINTER,
Rexbourough, Fa. formed Church, Kurriown, Berks county, Pa.

Dr. C. Josépon-Respected Sir: I have been troubled with Dyspepsis hearly twenty years, and have nover used say meeledne that did me as much good as Hoofland's German Bitters. I say very much improved in health, after having taken for bottles.

Yours, with respect.
